Dear Governor Cooper,

I'm writing to ask you to please do all you can to block the Atlantic Coast Pipeline. It will be carrying fracked gas, the production of which is extremely harmful to the environment. In addition, it leads us in the wrong direction for clean, dependable, affordable energy. North Carolina could help lead our country into an era of renewable energy using solar power and battery storage. I hope you have or will read the NC Clean Path 2025 report – renewable is possible. Thank you.

Peggy Wilson  
Apex, NC
